

## Langley Village Community Centre Exhibition Results

No	Comments	Resident or Visitor	Degree of Positivity	Offer of help (1=yes,0-No)
1	Excellent exhibition - well presented, well explained verbally and photographically. Wonderful new development - just what the village needs. It will open the doors to playgroups/youth clubs/craft/WI/clubs/activities/sports. An outside area on green for playgroup (enclosed) would be a wonderful addition. Impressed it will be so cheap to run. Totally in support - just what the village of the future needs.	R	10	1
2	A very good exhibition. Well presented and supported. Giving a very good idea of what can be achieved. Look forward to its completion	R	10	1
3	1. Would like to see a planting scheme to shelter residents from impact noise. 2. Hopefully minimal external lighting. 3. Not sure about any proposal to move the building to the left - maybe a bit nimby! 4. But like the building design.	R	8	0
4	Is there going to be any outside seating area. Is there going to be any more parking if the hall has a capacity of 100 people.	R	8	1
5	Looks good. We do need space for larger events and like the style, colour and size of it. How about a seating/patio area at the back?	R	8	1
6	I would like to see the proposals from the Church before coming to any given conclusion.	R	4	0
7	The plans are obviously an improvement on the present buildings. I would not want the footprint to be significantly larger (or nearer to our house). I wonder if the plans are quite ambitious and therefore costly for a small village?	R	6	0
8	All seems to make perfect sense to me.	R	8	1
9	I support a smaller pavilion on the green since I am convinced that the Church will close if it does not become the community facility of the village. I will be happy to debate further as the Church presents its plans	R	4	0
10	Nice plans - get the granting. Please can we have lots of events for young children if possible. Happy to help where I can.	R	8	1
11	I agree it needs modernising. In principle it sounds like a good idea, our only concerns are costs.	R	6	1
12	I agree it needs modernising. In principle it sounds like a good idea, our only concerns are costs.	R	6	1
13	Velux windows - for light (costs feasible); Looks aesthetically pleasing; Seating area for summer events; Try Jamie Oliver for help!!	R	7	1
14	I have no problem with having an appropriately sized cricket pavilion on the green so that we can keep the community centre in the Church. Well presented.	R	4	0
15	This is very exciting but I hope the diggers and machinery do not disturb the wildlife. I also hope it is not too loud. The hall now is quite old and I think it would be nice to have a brand new one.	R	8	1
16	It would be nice to stay on the green.	R	8	1
17	Only place suitable - services already available. Central to the village. Improves village and village green.	R	9	1

18	Exciting opportunity. Will be a fine addition to the Green. Maybe move proposed site towards pavilion and road. This would enable old hall to be used during the build phase and move the new building away from the trees.	R	8	0
19	This is definitely the way forward for the village. The new pavilion and community hall are excellent and will serve this community for a very long time. I am especially impressed with the design and its adaptability. We must think of the younger generation and not ourselves!	R	10	1
20	Plans for the proposed clubhouse and village hall appear well thought through and versatile in its uses. Looks very attractive. I would support this option because it will help continue the use of a community building for everybody.	R	9	0
21	Good, functional space. Could potentially be bigger so that it could cater for larger scale functions.	R	8	0
22	Plans to combine sports facilities together with general community centre is excellent and important to retain this on the village green. Pleasing to note position and foot print virtually the same so <u>should not</u> adversely affect nearby residents any more than existing facilities!! Need to encourage communal activities which will make more use of new facilities.	R	10	1
23	Having seen the detailed plans, discussed costs (including ongoing running costs) and fund raising ideas, I fully support this provision on the Green. In my capacity though as a Parish Councillor I remain impartial and will be guided by the wishes of the residents of the village.	R	8	1
24	Very impressed with the professionalism of the project. Looks amazing!! Would definitely be in favour of this building on the Green.	R	10	1
25	Very impressed with the professionalism of the project. Looks amazing!! Would definitely be in favour of this building on the Green.	R	10	1
26	In complete agreement with proposed clubhouse and village hall. It will make the village hall a great asset to the community (young and old). The current structures need to be rebuilt in the very near future and this is an ideal solution.	R	10	1
27	Move building forward to allow existing community centre to be kept whilst building. It's the way forward	R	10	1
28	Great idea! Looks 1000 times better than what is currently there! Facilities look great. Perhaps retain existing building whilst new one is built? Issues with re-ordering Church - no parking .... against plans for proposed car park over graves, expensive. Church not insulated .... expensive to run. Disconnected from heart of village. Does not make sense to build two buildings - sports pavilion and re-order Church.	V	10	1
29	I think the proposed hall will be a vast improvement on the present decrepit group of buildings and will enhance the Green. It will be wonderful to have such a great facility in Langley for young and old and the Green is definitely the right place for a community centre.	R	10	1

30	There is a great need for a new community centre in Langley, both for residents and those from surrounding villages. Clavering Village Hall is too big for some functions and also very busy. Local villages are also facing over capacity in pre-schools; a new community centre in Langley could provide a new pre-school for example.	V	10	1
31	Well thought out presentation. Good Luck!!	R	8	1
32	Well thought out presentation. Good Luck!!	R	8	1
33	No comments made	R	7	1
34	Looks like a great plan.	R	8	1
35	I have no previous connection to Langley before meeting my partner, whose family all live in Langley as he once did. In all events I have been to at Langley I have to say the community spirit is by far the best I have come across. This is why I am all for this new community centre as it certainly needs somewhere for the community to come together.	V	10	1
36	A sympathetic, well designed solution for a village with needs for encouraging a community environment. It ticks all the boxes.	V	10	1
37	For community centre - against addition to Church.	R	8	0
38	We are currently living in Duddenhoe End where the village hall facilities are substandard. We are excited about the possibility of these new facilities being created in Langley, particularly as we are expecting our first child and the new village hall could provide a Mother & Toddler group and youth club for Diane's 11 year old son. We are very enthusiastic about the design as it would be a great improvement on the current appearance of the site.	V	10	0
39	We are currently living in Duddenhoe End where the village hall facilities are substandard. We are excited about the possibility of these new facilities being created in Langley, particularly as we are expecting our first child and the new village hall could provide a Mother & Toddler group and youth club for Diane's 11 year old son. We are very enthusiastic about the design as it would be a great improvement on the current appearance of the site.	V	10	0
40	Looks efficient use of space and up to its potential modern use. Could really enliven the village and produce a more sociable environment particularly for the young. Significantly more viable and realistic than any proposed plans by Church committee, some of which border on morally abhorrent.	R	8	0
41	What a wonderful asset to the village. It would be so good to see a pre-school facility in the new village hall, this is now needed. This is the best place in the village to have a new centre and sports hall and I would give 100% support for this.	R	10	1
42	It looks great! I'm a bit concerned about how we'd raise £170k but, if it can be done without causing too much controversy, then I would support it!	R	8	1
43	The key is getting the village behind. Need ideas for raising the additional £173,000. Any thoughts of applying for solar panelling (selling back to the Grid) ?	R	8	1

44	Excellent scheme. Well thought out and I am sure such a project will provide a much needed facility in the perfect position, where the community will flourish.	R	10	1
45	Full support : the village needs this facility (and more young families in new houses!!)	R	10	1
46	I believe that the new village hall/centre will be a fabulous and essential asset to the village which will provide a central facility to be used by all and which will bring back the village spirit to this beautiful village. An enabling project would create the funds to ensure the project is viable but, if this is not possible, then the village will get together to raise the funds to make this happen.	R	10	1
47	Very impressive plans and an attractive building.	R	8	1
48	The plans for the new community centre look brilliant and very well thought out. The building is sympathetic in its size and scale and would be a great replacement for the facilities currently in place.	V	10	1
49	We think it is a fantastic project and would love to see it achieved. It would benefit the village and future generations. We feel it would pull members of the village together while doing this. We would like to support in any way we can. The proposed excellent building design fits in and is in keeping with the rest of the village and has been thought out to cover a number of different uses. Very comprehensive. Well done.	R	10	1
50	We think it is a fantastic project and would love to see it achieved. It would benefit the village and future generations. We feel it would pull members of the village together while doing this. We would like to support in any way we can. The proposed excellent building design fits in and is in keeping with the rest of the village and has been thought out to cover a number of different uses. Very comprehensive. Well done.	R	10	1
51	Impressed with the plans. If we can get as much local help as with the present centre it should be possible to reduce the costs.	R	9	1
52	Build some houses to fund the build and get on with it ASAP - prices will only go up each year.	R	10	1
53	Seems like a good plan moving forward. Hopefully will happen during our time in Langley	R	8	1
54	Fully supported.	R	10	1
55	Excellent and well thought out plans that should be supported	R	10	1
56	Excellent and well thought out plans that should be supported			
57	The looks like an excellent scheme that will bring the community facilities up to date. I am providing all the support I can to the newly emerging youth group and hope that they can be fully integrated into this plan.	V	10	0
58	I think this is a brilliant project and would be a great benefit to the whole community.	R	10	1
59	Looks fabulous.	R	10	1
60	This would be a valuable building for the village and could be used for so many clubs and occasions. Excellent project!!	R	10	1

61	This will be a big asset to the village and will enable more functions to be held. A wonderful project!	R	10	1
62	Looks very good. You have my support	R	10	1
63	Although not resident in Langley but own land within the Parish and frequent user of community centre. Good, practical design. Worried there may not be enough parking for our WI meetings - the present area is too small now.	V	10	1
64	A worthy and viable addition to Langley - will work well for the community and should be encouraged by all. I hope the villagers are in approval as this could be a missed opportunity.	R	10	1
65	I think the new plans look great. A real improvement on the old buildings and hopefully this will help to bring back lots of village activities for young people in Langley!	V	10	1
66	It looks great.	R	10	0
67	Excellent plans and proposed layout. I think it is time for a vote on the proposals being put forward by both groups, so hopefully one of the potential schemes get the mandate and moves forward. A joint exhibition for all the potential options prior to the vote would allow merits to be compared.	R	6	1
68	Something the village has needed for a long time. It's a versatile space for the village and could be used by everyone. I like that it would be more than a cricket pavilion	R	10	1
69	Although a resident of Claverig I support the idea of a community centre on the village green and will help in anyway I can, if appropriate for a resident of Clavering.	V	10	1
70	A good idea - go ahead.	R	10	0
71	Good looking building - well designed with sympathetic finishes. Hall area too large, perhaps reconsider this. However difficult to reconcile when the future of the church is taken into account.	R	6	0
72	Impressed with proposed plans.	R	8	1
73	Impressed with proposed plans.	R	8	1
74	What a brilliant proposal!!! This is much needed in Langley - we need a rendezvous for partying and bringing people together in somewhere welcoming, fresh and new.	R	10	1
75	Very appropriate building - both in terms of appearance and layout. Well Done!!	R	10	1
76	Excellent first impression of elevations. Good scale. Low maintenance. Has my support.	R	10	1
77	Very good "visualisation" exhibition. Hall plans look amazing - much better than the "hotch potch" of building currently being used. Good idea to shift the footprint over slightly to enable current hall to be used until new hall completion. Completely in favour of the hall being sited on the Green - at the centre of the community. 100% in favour. Good sports facilities will draw the younger members of the village in.	R	10	1
78	A stunning proposal that could make the Green the heart of the community. With so many children and young people in the village we desperately need a facility like this. The building plan gives a versatile space for different clubs (Youth, Sports, Mums & Toddlers etc.). This project could bring the community alive!!	R	10	1

79	This project if completed will bring a new dimension to life in Langley. We will be able to meet altogether in one place and in addition Youth Club, Toddlers, WI and many other groups will have great facilities in the centre of the village with green space all around for play and relaxation. A wonderful project - it must be completed.	R	10	1
80	Looks good. Let's hope we can get proposals and vote before the village then move forward together whatever emerges as the consensual plan - be it this, or church, or combination of both.	R	6	0
81	I really like it. Sympathetic design, in keeping with the Green and perfect site for functional requirements versus cost of build and running.	R	8	1
82	We so need this hall. I wish we could have the houses to fund this, as this would provide for young people in the village.	R	10	1
83	Great idea to further bring communities together.	R	10	1
84	The village needs a modern building for the community to meet for various forms of entertainment. Hopefully this will also encourage a happy atmosphere and good village spirit amongst the people of the village.	R	10	1
85	Will enhance the community - proceed without delay.	R	10	1
86	A wonderful opportunity to provide something for the future of the village	R	10	1
87	I would like to have games on the green and the building. Fundraising and some diy, parties and see some people	R	10	1
88	Very impressive scheme - well presented. Will provide a pleasant useful centre for the village. Let's hope it proceeds!	R	10	1
89	A well thought out and planned facility that should bring a cost effective flexible solution for the village.	R	10	1
90	Great idea.	R	10	1
91	Wait and see.	R	5	0
92	No comments made	R	5	0
93	Funding 100% to be in place before any works be started. No shortfall must be filled by any building in the village. Confirmation of the numbers the hall can hold i.e. 70 seated? 100 standing etc. Also a question to all village - will they use it. Cost of rental? What is the proposed? Min of 3 quotes for every aspect of the build to be discussed and shared with the entire village!	R	4	0
94	Very much enjoyed the exhibition, however I have the following concerns: 3 quotes for all aspects of the build to be displayed openly in the village. Only agree IF it is not funded by any building of additional homes! Building only begins once ALL funding in place!	R	4	0
95	Looks Good	R	9	1
96	I like the proposed building and the ideas. Most important to me is to get the village together again- to get the hall on the green and to raise money for the church so we can use both buildings to their best advantage	R	9	1

97	Very pleased looking at the plans. As there is no longer a cricket club in the village the changing room/shower room could be used as the time being for separate meetings if the main hall was being used. Layout is excellent, kitchen facilities look good. Plenty of storage. All in all excellent presentation and idea, I'm all for this design.	R	10	1
98	The aspirational plans for the new village halls seem sensible and well thought though: meeting the needs of the village whilst also being realistic and practical.	R	9	
99	Good looking building -well designed and sympathetic finishes. Hall too large perhaps, consider this. However difficult to reconcile when the future of the church is taken into account.	R	6	0
100	Excellent design and a much needed facility. It is the correct place for a new community centre. The church just wouldn't work.	R	10	1
101	The plans for the village hall looked good. These seem to be real sense to locating moderate facilities on the existing site on the village green. I would not however be in support of a divisive enabling development to support the costs of the facility. I also look forward to seeing the plans for the church. I have no particular skills to assist but would be happy to help raise funds although I have limited time with a full time job, lots of travel and two young children	R	8	1
